

Apply here

Start date

Flexible within the next three months

Duration

6 months

Languages

Good spoken and written English levels are required (B2 onwards)

Location

Bristol, England

Bristol is the largest city in the South West of England. It has a strong reputation for creativity, digital innovation and social enterprise, and is the home of Oscar-winning Wallace and Gromit and urban artist Banksy. Offering a lively nightlife, bars and restaurants aplenty, musical diversity and many historical sites, in 2017, The Times newspaper voted it 'Best Place to Live in the UK'.

Are you eligible?

Are you a registered student?
Or

Are you eligible to participate in the Erasmus+ programme?

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This is a fantastic opportunity for an enthusiastic Android developer to work on a ground-breaking platform enabling organisations without coding experience to build intuitive apps for their business or customers. Mentored throughout, you will be exposed to the latest cutting-edge technologies including chatbots, wearables and AR. For the selected individual, this will be an amazing chance to develop your skills and be part of the company that is changing the face of app development.

Tasks

- Assist in the design and build of Android applications
- Collaborate with cross-functional teams to define, design and ship new features
- Work on bug fixing and improving application performance
- Continuously discover, evaluate, and implement new technologies to maximise development efficiency
- Communicate with clients

Desired Skills

- Studying for a degree in Software engineering or similar
- Experience in Android development and software development
- Knowledge of the full mobile development life cycle is a plus
- Exposure to or knowledge of Kotlin, Swift, Objective-C, Java, Javascript, GIT, Android Studio
- Knowledge of the general mobile landscape, architectures, trends and emerging technologies
- Excellent teamwork skills, good analytical and problem-solving skills with the ability to meet deadlines and work under pressure

The Host Company

This innovative, ground-breaking host is leading the way in mobile app creation, making it possible for those without coding knowledge to develop apps using their unique, intuitive creation platform. With a simple drag-and-drop interface, the user can mix and match hundreds of actions to create quick shortcuts, manage media, share content and much more. This is a real game changer in the future of app development and the company is now looking to take it to the next level; they are seeking like-minded people to join them on this exciting journey.
